3M Double Coated Film Tape476XL

Product Description	476XL Double Coated Film Tape is a pressure-sensitive adhesive system that offers excellent quick stick for sealing many boxes and tubes used for various types of shipments. The adhesive width is decreased by 1/8 in. on each side to facilitate easy liner startability.	
Construction	Product	476XL Tape
	Adhesive Type:	High tack synthetic rubber resin
	Adhesive Carrier:	Polypropylene film
	Release Liner:	White with red printing "Remove To Expose Adhesive"
	Approximate Thickness:	.009 in. (0.23 mm)
	Release Liner:	.003 in. (0.08 mm)
	Tape Only:	.006 in. (0.16 mm)
	Tape Color:	Clear
Typical Physical Properties		cal information and data should be considered representational not be used for specification purposes.
	Adhesion to Steel:	130 oz./in. width (141 N/100 mm)
	Relative High Temperature Operating Ranges: Long Term (days, weeks)	120°F (50°C)
	Short Term (minutes)	150°F (65°C)
	Shelf Life:	18 months from date of receipt by customer when stored in original cartons at 70°F (21°C) and 50% R.H.
Available Sizes	Core Size:	3.0 in. (76.2 mm)
	Available Widths:	1.5 in. (38 mm)
	Available Lengths:	540 yds. (494 mm)

Double Coated Film Tape

476XL

Application Techniques

- Bond strength is dependent upon the amount of adhesive-to-surface contact developed. Firm application pressure helps develop better adhesive contact and improve bond strength.
- Ideal tape application temperature range is 70°F to 100°F (21°C to 38°C). Initial tape application to surface at temperatures below 50°F (10°C) is not recommended because the adhesive becomes too firm to adhere readily. However, once applied, low temperature holding is generally satisfactory.

For Additional Information

To request additional product information or to arrange for sales assistance, call toll free 1-800-362-3550. Address correspondence to: 3M Industrial Tape and Specialties Division, 3M Center, Building 220-7E-01, St. Paul, MN 55144-1000. Our fax number is 612-733-9175. In Canada, phone: 1-800-364-3577. Important Notice

3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application. Please remember that many factors can affect the use and performance of a 3M ITSD product in a particular application. The materials to be bonded with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a 3M ITSD product. Given the variety of factors that can affect the use and performance of a 3M ITSD product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M ITSD product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

Limitation of Remedies and Liability

If the 3M product is proved to be defective, THE EXCLUSIVE REMEDY, AT 3M'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT. 3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including negligence, warranty, or strict liability.

This Industrial Tape and Specialties Division product was manufactured under a 3M quality system registered to ISO 9002 standards.
