3M Non-woven Double Coated Tape 78015

page 1 of 3

Technical Data		Jul. 2011	
Product Description	pressure sensitive adhesive release liner. It features dimensional st	en tape coated on both side with a high adhesion acrylic ve. This tape is protected by a polycoated white paper ability and improved handling with ease of die cutting. Acrylic Adhesive provides high bond strength to most	
Feature	- Formulated for many indoor general purpose		
Teature	- Mounting and joining applications, where moderate temperature and shear		
	performance are required.		
	- High initial tack for many industrial foams and plastics.		
	- Good adhesion to many kinds of materials including low		
Application Idea	 General purpose joining and mounting application at indoor and outdoor use Holding and bonding of electronic devices Electronic Components Bonding / Attachments 		
	Appliance parts Bonding / Attachments		
Construction	Product	78015	
	Adhesive Type	High Performance Acrylic adhesive	
	Tape Thickness	0.15mm	
	Tape Color	Off-White	
	Carrier	Non-woven	
	Release Liner	Silicone treated Poly Coated Kraft	
		(Yellow green 3M logo printed)	
	Liner Thickness	0.150mm (+/- 10%)	
	Roll Size	1200mm wide x 50M, 100M

Application Technique

- Bond strength is dependent upon the amount of adhesive to surface contact developed. Firm application pressure helps develop better adhesive contact and improve bond strength.
- To obtain optimum adhesion, the bonding surfaces must be clean, dry and well
 unified. Typical surface cleaning solvents are isopropyl alcohol and water
 (rubbing alcohol) or heptane.

Note: Be sure to follow manufacturer's safety precautions and directions for use when using solvents.

• Ideal tape application temperature range is 70°F To 100°F (21°C to 38°C). Initial tape application to surfaces at temperatures below 50°F (10°C) is not recommended because the adhesive becomes too firm to adhere readily. However, once properly applied, low temperature holding is generally satisfactory.

For Additional Information

To request additional product information or to arrange for sales assistance, call 82-2-3771-4097. Address correspondence to : 3M Industrial Adhesives & Tapes Division, 3M Korea LTD, Hana Daetoo Securities BLDG 22nd Floor, Yoido Dong, Yongdeungpogu, Seoul, Korea. Our fax number is 82-2-786-7429

Important Notice

3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application. Please remember that many factors can affect the use and performance of a 3M IATD product in a particular application. The materials to be bonded with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a 3M IATD product. Given the variety of factors that can affect the use and performance of a 3M IATD product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M IATD product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

Limitation of Remedies and Liability

If the 3M product is provided to be defective, THE EXCLUSIVE REMEDY, AT 3M'S OPTION, SHALL BE TO REFUND THE PURXHASE PRICE OF REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT. 3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the theory asserted, including negligence, warranty, or strict liability.

(ISO 9002)

This Tape & Adhesives Organization product was manufactured under a 3M quality system registered to ISO 9002 standards.
